This is a request for an Abdomen and Pelvis CT.; This study is being requested for This is a request for an Abdomen and Pelvis CT.; This study is not being requested for This is a request for an Abdomen and Pelvis CT.; This study is not being requested for This is a request for an Abdomen and Pelvis CT.; This study is not being requested for A CT Scan has been previously conducted.; Prior imaging was abnormal; Tumor, mass, A CT Scan has been previously conducted.: Prior imaging was abnormal: Tumor, mass. A CT Scan has been previously conducted.; Prior imaging was inconclusive; The A CT scan is the only has been previously conducted.; Prior imaging was abnormal; MRI ENTEROCLYSIS; This study is being ordered for something other than: known This request is for an Abdomen MRI.; This study is being ordered for pre-operative This request is for an Abdomen MRL: This study is being ordered for suspicious mass or This request is for an Abdomen MRI.: This study is not being ordered for known tumor. This is a request for CT Colonoscopy for screening purposes only. This procedure is being requested for evaluation of vascular disease in the stomach or This is a request for Breast MRI.: The health carrier is NOT Maryland Physicians Care or This is a request for Breast MRI.: The health carrier is NOT Maryland Physicians Care or This is a request for Breast MRL: The patient has a lifetime risk score of greater than This is a request for Breast MRI.; This study is being ordered for a known history of This is a request for Breast MRI.; This study is being ordered for known or suspected This is a request for Breast MRI.; Yes, the patient have a known mutation such as A biopsy substantiated the cancer type; This Pet Scan is being requested for Suspected This is a request for a PET Scan: This is a Medicare member.: A sentinel biopsy was NOT This a request for an echocardiogram.; This is a request for a Transthoracic This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; This is a request for a brain/head CT.; The patient has a new onset of a headhache This is a request for a Sinus CT.: This study is being ordered for a known or suspected This case was created via RadMD.: Agree: This procedure is being requested for "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 Abnormal laboratory test describes the reason for this request.; This is a request for a There has been treatment or conservative therapy.; The ordering MDs specialty is NOT There has not been any treatment or conservative therapy.; The ordering MDs This study is being ordered for Inflammatory/ Infectious Disease.; There has been This study is being ordered for Vascular Disease: The ordering MDs specialty is CEREBRAL ANEURYSM; This is a request for a thoracic spine CT.; There is no reason This is a request for cervical spine MRI; The reason for ordering this test is Neurologic This is a request for cervical spine MRI; This procedure is being requested for Chronic / Patient is a logger and runs chainsaws and heavy equipment daily.; This study is being The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back patient has pain. lymph size has gone down, CT is needed to discuss further ; This study is being ordered for some other reason than the choices given.; This is a Hernia suspected, inguinal or femoral; This study is being ordered for some other patient who presents to clinic today for evaluation of a perineal mass. He states it is Status post bilateral inguinal hernia repair in 2023 with Dr. Latham. Operative findings The patient is female: Other not listed best describes the reason for this procedure The patient is female.; Persistent pain best describes the reason for this procedure; The The patient is male.; Other not listed best describes the reason for this procedure Patient is a logger and runs chainsaws and heavy equipment daily.; This study is being Patient is having increasing pain and decreased strength to the left elbow and This is a request for a hip CT.: This study is not being ordered in conjunction with a There is a pulsaitile mass.; "There is evidence of tumor or mass from a previous exam, This is a request for an Abdomen CT.; This study is being ordered for a known tumor, This is a request for an Abdomen CT.; This study is being ordered for a known tumor, This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass This is a request for an Abdomen CT.; This study is being ordered for another reason This study is being ordered for Vascular Disease: The ordering MDs specialty is There has been treatment or conservative therapy.; The ordering MDs specialty is NOT This is a request for an Abdomen and Pelvis CT.; A urinalysis has been completed.; This This is a request for an Abdomen and Pelvis CT.; A urinalysis has been completed.; This This is a request for an Abdomen and Pelvis CT.; A urinalysis has not been completed.; This is a request for an Abdomen and Pelvis CT.; A urinalysis has not been completed.; This is a request for an Abdomen and Pelvis CT.: It is not known if a urinalysis has been This is a request for an Abdomen and Pelvis CT.; It is not known if a urinalysis has been This is a request for an Abdomen and Pelvis CT.; It is not known if a urinalysis has been This is a request for an Abdomen and Pelvis CT.; The reason for the study is none of the This is a request for an Abdomen and Pelvis CT.; The reason for the study is none of the This is a request for an Abdomen and Pelvis CT.; The reason for the study is suspicious This is a request for an Abdomen and Pelvis CT.: This study is being requested for This is a request for an Abdomen and Pelvis CT.; This study is being requested for This is a request for an Abdomen and Pelvis CT.; This study is being requested for This is a request for an Abdomen and Pelvis CT.; This study is being requested for This is a request for an Abdomen and Pelvis CT.: This study is being requested for This is a request for an Abdomen and Pelvis CT.: This study is being requested for This is a request for an Abdomen and Pelvis CT.: This study is being requested for This is a request for an Abdomen and Pelvis CT.; This study is being requested for This is a request for an Abdomen and Pelvis CT.; This study is being requested for A CT Scan has been previously conducted.; Prior imaging was inconclusive; Tumor, Post-procedure evaluation best describes the reason for this procedure.: The patient This request is for an Abdomen MRI: This study is not being ordered for known tumor. Tumor, mass, neoplasm, or metastatic disease best describes the reason for this This procedure is being requested for evaluation of vascular disease in the stomach or This a request for an echocardiogram.; This is a request for a Transthoracic "This is a request for orbit, face, or neck soft tissue MRI.239.8"; The study is ordered for There are 2 exams are being ordered.: The ordering MDs specialty is Surgical Oncology This request is for a Brain MRI; It is unknown if the study is being requested for A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes A Chest/Thorax CT is being ordered.; Yes this is a request for a Diagnostic CT; This

This is a request for neck soft tissue CT.; The patient has a suspicious infection or	1	
Cerebrovascular Accident; hemorrhagic stroke; This study is being ordered for trauma	1	
Neck trauma, arterial injury suspected ;bcvi ;;;Pt stated that he wrecked his Patient admitted with unilateral body weakness, numbness, and tingling. CTA upon	1	
Patient had an endarterectomy done for Carotid artery stenosis in 2022. Patient has	1	
Patient with long standing tobacco use, HIV, HTN, HLD, new onset left jaw and ear	1	
This case was created via RadMD.; Agree; The procedure is planned in 6 months or less;	3	
- Trauma surgery primary service;- Reviewed the CTA head and neck. A small	1	
Cerebrovascular Accident; hemorrhagic stroke; This study is being ordered for trauma	1	
Neck trauma, arterial injury suspected ;bcvi ;;;Pt stated that he wrecked his	1	
Patient admitted with unilateral body weakness, numbness, and tingling. CTA upon	1	
Patient had an endarterectomy done for Carotid artery stenosis in 2022. Patient has Patient with long standing tobacco use, HIV, HTN, HLD, new onset left jaw and ear	1	
This case was created via RadMD.; Agree; The procedure is planned in 6 months or less;	1	
New patient annual exam/ never had an eye exam before now;Pt states his vision is	1	
Concern for recent TIA (brief aphasia, right hand numbness);;Stroke work up, recent	1	
Eval for venous sinus thrombosis, hisotry of thrombophilia and CRVO R eye; There is	1	
subarachnoid hemorrhage due; to a ruptured wide neck 8 mm right posterior	1	
Concern for recent TIA (brief aphasia, right hand numbness);;Stroke work up, recent	1	
Concern for recent TIA (brief aphasia, right hand numbness);;Stroke work up, recent	1	
new diagnosis cardiac sarcoidosis; This study is being ordered for Inflammatory/ New patient annual exam/ never had an eye exam before now;Pt states his vision is	1	
PT HAS malignant melanoma; right ovarian cyst; a single lymph node of left axilla;		R51 Heada

The patient does NOT have acute or The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back The study requested is a Lumbar Spine MRI.: The patient has acute or chronic back The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back The study requested is a Lumbar Spine MRL: The patient has acute or chronic back The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back The study requested is a Lumbar Spine MRI.; The patient has Other; This procedure is The study requested is a Lumbar Spine MRI.; This case was created via BBI.; A Physician The study requested is a Lumbar Spine MRI.: This case was created via RadMD.: Agree: 11 The study requested is a Lumbar Spine MRI.: This case was created via RadMD.: Agree The study requested is a Lumbar Spine MRL: This case was created via RadMD: Agree: 19 The study requested is a Lumbar Spine MRI.; This case was created via RadMD.; Agree; 12 This study is being ordered as a follow-up to trauma.; "The ordering physician is a This study is being ordered due to known or suspected infection.; "The ordering This study is being ordered due to known or suspected infection.: "The ordering PAIN MANAGEMENT: This study is being ordered for something other than; known -Recommend MRI Lumbar Spine - MRI lumbar spine is being requested to further Recommend MRI Lumbar Spine - MRI lumbar spine is being requested to further The patient is female.; Infection or inflammatory disease best describes the reason for The patient is female.; It is unknown why ths procedure is being ordered The patient is female,: Persistent pain best describes the reason for this procedure: The The patient is female,: Tumor, mass, neoplasm, or metastatic disease best describes The patient is male.; Persistent pain best describes the reason for this procedure; The The patient is male.; Tumor, mass, neoplasm, or metastatic disease best describes the There is a history of upper extremity joint or long bone trauma or injury.; This is a This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist, joint This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint The request is for an upper extremity non-joint MRI.; This is a preoperative or recent The request is for an upper extremity non-joint MRI.; This is not a preoperative or The request is for an upper extremity non-joint MRI.; This is not a preoperative or ; The pain is from a recent injury.; Surgery or arthrscopy is not scheduled in the next 4 In addition, she also complains of Neck and Arm Pain and Shoulder Pain, On a The pain is described as chronic; The member has failed a 4 week course of The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRL: The request is for shoulder pain.: The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.: The request is for shoulder pain.: The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.; The request is for shoulder pain.; The pain is The requested study is a Shoulder MRI.; The study is not requested for shoulder pain.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.: There is There is suspicion of a lower extremity neoplasm, tumor or metastasis.; This is This is a request for a foot CT.; "There is a history (within the past six weeks) of This is a request for an Ankle CT.; Yes this is a request for a Diagnostic CT; There a This is not a preoperative or recent postoperative evaluation.; There is no suspicion of Yes, this is a request for CT Angiography of the lower extremity. -Recommend MRI Cervical Spine- MRI cervical spine is being requested to further This is a request for a foot MRI.; The study is being oordered for infection.; There are This is a request for a foot MRI.; The study is being oordered for infection.; There are This is a request for a foot MRI.; The study is being oordered for infection.; There are This is a request for a foot MRI.; The study is being ordered forfoot pain.; The study is This is a request for a foot MRI.; The study is being ordered forfoot pain.; The study is This is a request for a Knee MRI.: Abnormal imaging study of the knee was noted as an This is a request for a Knee MRI.: Abnormal imaging study of the knee was noted as an This is a request for a Knee MRI.; Abnormal physical examination of the knee was This is a request for a Knee MRI.; Abnormal physical examination of the knee was This is a request for a Knee MRI.; Abnormal physical examination of the knee was This is a request for a Knee MRL: Abnormal physical examination of the knee was This is a request for a Knee MRI.: Abnormal physical examination of the knee was This is a request for a Knee MRI.; Abnormal physical examination of the knee was This is a request for a Knee MRI.; Abnormal physical examination of the knee was This is a request for a Knee MRI.; Blood or abnormal fluid in the knee joint was noted as This is a request for a Knee MRI.: 'None of the above' were noted as an indication for This is a request for a Knee MRL: The patient had 4 weeks of physical therapy. This is a request for a Knee MRI.; The patient has recently been put on non-This is a request for a Knee MRI.; The patient has recently been put on non-This is a request for an Ankle MRI.; The study is requested for ankle pain.; There is a This is a request for an Ankle MRI.; The study is requested for ankle pain.; There is a This is not a pulsatile mass.: There is not a suspicion of an infection.: This is a study for a This is not a pulsatile mass.; There is not a suspicion of an infection.; This is not a study This is not a pulsatile mass.; There is not a suspicion of an infection.; This is not a study This study is being ordered for something other than: known trauma or injury,

This request is for a Brain MRI; The study is being requested for evaluation of a This request is for a Brain MRI; The study is NOT being requested for evaluation of a This request is for a Brain MRI; The study is NOT being requested for evaluation of a This request is for a Brain MRI; The study is NOT being requested for evaluation of a This request is for a Brain MRI: The study is NOT being requested for evaluation of a This request is for a Brain MRI; The study is NOT being requested for evaluation of a This request is for a Brain MRI; The study is NOT being requested for evaluation of a This request is for a Brain MRI; The study is NOT being requested for evaluation of a This request is for a Brain MRI; The study is NOT being requested for evaluation of a This request is for a Brain MRI: The study is NOT being requested for evaluation of a This request is for a Brain MRI: The study is NOT being requested for evaluation of a This request is for a Brain MRI; The study is NOT being requested for evaluation of a ; This study is being ordered for a metastatic disease.; The ordering MDs specialty is A Chest/Thorax CT is being ordered.; The patient had a Low Dose CT for Lung Cancer A Chest/Thorax CT is being ordered.: This study is being ordered for non of the above.: A Chest/Thorax CT is being ordered: Yes this is a request for a Diagnostic CT: This A Chest/Thorax CT is being ordered.; Yes this is a request for a Diagnostic CT; This A Chest/Thorax CT is being ordered.; Yes this is a request for a Diagnostic CT; This Abnormal finding on examination of the chest, chest wall and or lungs describes the Abnormal imaging test describes the reason for this request.; This is a request for a ENLARGED LYMPH NODES, THYROID EVAL, POST OP FOR SURGERY: This study is being It is not known if there has been any treatment or conservative therapy.; The ordering It is not known if there has been any treatment or conservative therapy.; The ordering 'None of the above' describes the reason for this request.; Restaging during ongoing There has been treatment or conservative therapy.; The ordering MDs specialty is NOT There has not been any treatment or conservative therapy.: The ordering MDs There is no radiologic evidence of asbestosis.: "There is no radiologic evidence of There is no radiologic evidence of mediastinal widening.; There is no physical or There is not a known inflammatory disease.; There is not a known tumor.; There is no This request is for a Low Dose CT for Lung Cancer Screening.; This patient has had a This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had This request is for a Low Dose CT for Lung Cancer Screening.: This patient has NOT had Chronic. Unchanged. Most recent CTA of aorta was 2021. Due for repeat, ordered. lung nodule follow up; This study is not requested to evaluate suspected pulmonary This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a 3/5/24 Here to follow up. He is doing a little better but continues to have fairly severe Patient was involved in a motor vehicle collision 9 days ago. Airbags were not This study is being ordered for trauma or injury.: There has not been any treatment or This study is not to be part of a Myelogram.: This is a request for a Cervical Spine CT: This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; ; This is a request for a thoracic spine CT.; There is no reason why the patient cannot Hypertension and Nevus: Abrasion to left forearm on Sunday 5/12/24 from chicken The patient does have neurological deficits: This is a request for a thoracic spine CT: 3/5/24 Here to follow up. He is doing a little better but continues to have fairly severe Low back pain, prior surgery, new symptoms; Spinal fusion, lumbar, follow up; surgical This is a request for a lumbar spine CT.; Acute or Chronic back pain; The patient does This is a request for a lumbar spine CT.; Acute or Chronic back pain; The patient does This is a request for a lumbar spine CT · Acute or Chronic back pain: The patient does This is a request for a lumbar spine CT.; Acute or Chronic back pain; The patient does This is a request for a lumbar spine CT.; Acute or Chronic back pain; The patient does This is a request for a lumbar spine CT.; Acute or Chronic back pain; The patient does This is a request for a lumbar spine CT.; Acute or Chronic back pain; The patient does This is a request for a lumbar spine CT.; Neurological deficits; The patient does have This is a request for a lumbar spine CT.: Suspected Tumor with or without Metastasis: . -Recommend MRI Cervical Spine- MRI cervical spine is being requested to further ; It is not known if there has been any treatment or conservative therapy.; This case ; There has been treatment or conservative therapy.; This case was created via ; There has been treatment or conservative therapy.; This case was created via ; This study is being ordered for something other than: known trauma or injury, Chronic Neck and back pain :Last MRI- notes it has been years:He was seeing a Constitutional: The patient is overweight but otherwise appropriate-looking for stated Musculoskeletal-Head and neck (C- Spine): Neck is supple and has normal cervical Recommend continuation of current medications, though it is not adequately -Recommend MRI Cervical Spine- MRI cervical spine is being requested to further -Recommend MRI Cervical Spine- MRI cervical spine is being requested to further send clinicals: This study is being ordered for Congenital Anomaly.: There has been She has pain in between her shoulder blades but also in her thoracic region that seems Spondylosis without myelopathy; radiculopathy; There has been treatment or There has been treatment or conservative therapy.; This case was created via BBI.; This This is a request for cervical spine MRI: The reason for ordering this test is Neurologic This is a request for cervical spine MRI: The reason for ordering this test is Neurologic This is a request for cervical spine MRI: The reason for ordering this test is Neurologic This is a request for cervical spine MRI; The reason for ordering this test is Trauma or This is a request for cervical spine MRI; This procedure is being requested for Acute / This is a request for cervical spine MRI; This procedure is being requested for Acute / This is a request for cervical spine MRI; This procedure is being requested for Acute / This is a request for cervical spine MRI: This procedure is being requested for Acute / This is a request for cervical spine MRI; This procedure is being requested for Acute / This is a request for cervical spine MRI; This procedure is being requested for Chronic / This is a request for cervical spine MRI; This procedure is being requested for Chronic / This is a request for cervical spine MRI; This procedure is being requested for Chronic / This is a request for cervical spine MRI: This procedure is being requested for Chronic / This is a request for cervical spine MRI; This procedure is being requested for Chronic / This is a request for cervical spine MRI; This procedure is being requested for Chronic / This is a request for cervical spine MRI; This procedure is being requested for Chronic /

subarachnoid hemorrhage due; to a ruptured wide neck 8 mm right posterior

This is a request for an Abdomen and Pelvis CT.; This study is being requested for This is a request for an Abdomen and Pelvis CT.; This study is being requested for This is a request for an Abdomen and Pelvis CT.; This study is not being requested for This is a request for an Abdomen and Pelvis CT.; This study is not being requested for This is a request for an Abdomen and Pelvis CT.; This study is not being requested for A CT Scan has been previously conducted.: Prior imaging was abnormal: The ordering Infection or inflammatory disease best describes the reason for this procedure.; The New right adrenal gland nodule 1.9 x 1.1 cm indeterminate could be ;an adrenal gland The ordering provider's specialty is NOT Vascular Surgery, Interventional Radiology, This study is being requested for other not listed. This study is being requested for vascular abnormalities: The natient does not have a This is a request for CT Colonoscopy for screening purposes only Family HX of early CAD; This is a request for a CT scan for evalutation of coronary This is a request for CTA Coronary Arteries.; The condition is known; This study is It is unknown why this procecure is being requested This procedure is being requested for evaluation of vascular disease in the stomach or ; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The ; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The Chest pain with DOE; This is a request for Myocardial Perfusion Imaging (Nuclear Coronary artery disease, unspecified vessel or lesion type, unspecified whether angina Increasing sob, cp, and palpitations.; This study is being ordered for something other Patient has chest pain, atrial fibrillation. Patient has chronic back pain and cannot walk Patient presents with chest pain, shortness of breath, numbness to left arm; This is a PATIENT WITH HYPERTENSION; DYSPNEA; PALPITATIONS; ABN EKG NEEDS The patient did NOT have a prior CABG.; This is a request for Myocardial Perfusion This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The A biopsy has NOT substantiated the cancer type: This Pet Scan is being requested for This Pet Scan is being requested for Other; This is for a Routine/Standard PET Scan A biopsy substantiated the cancer type; This Pet Scan is being requested for Suspected A biopsy substantiated the cancer type; This Pet Scan is being requested for Suspected Patient is a 58-year-old male with no significant past medical history other than 40 This is a request for a PET Scan; This is a Medicare member.; This is for a #1 angina:#2 dyspnea on exertion:#3 tobacco dependency:#4 family history of 6 month f/up;Followup: Peripheral nerve disease;Followup: Coronary arteriosclerosis Increasing sob, cp, and palpitations.; This study is being ordered for something other This a request for an echocardiogram.; This is a request for a Transthoracic This a request for an echocardiogram.; This is a request for a Transthoracic This a request for an echocardiogram.; This is a request for a Transthoracic This a request for an echocardiogram.: This is a request for a Transthoracic

This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram; This study is being ordered for none of the above; This study is being ordered for rone of the above; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease; The patient has a history of hypertensive heart disease; There is a change in the patient's cardiac symptoms.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease; The patient has high blood

This a request for an echocardiogram.; This is a request for a Transthoracic This is a request for a Stress Echocardiogram.: New symptoms suspicious of cardiac This request is for a Brain MRI: None of the above best describes the reason that I have A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; A Chest/Thorax CT is being ordered.; Yes this is a request for a Diagnostic CT; This Abnormal imaging test describes the reason for this request.; This is a request for a 'None of the above' describes the reason for this request.; Surveillance of a known RENAL CELL CARCINOMA; This study is being ordered for a metastatic disease.; The There has been treatment or conservative therapy.; The ordering MDs specialty is NOT There has been treatment or conservative therapy.; The ordering MDs specialty is NOT There has been treatment or conservative therapy.; The ordering MDs specialty is NOT There has not been any treatment or conservative therapy.; The ordering MDs There has not been any treatment or conservative therapy.; The ordering MDs There has not been any treatment or conservative therapy.; The ordering MDs BLADDER INJURY AND VESICORECTAL FISTULA; This study is being ordered for some The patient has painful hematuria.; The patient has not had an IVP.; This study is being The patient is not undergoing active treatment for cancer.; This study is being ordered The patient is undergoing active treatment for cancer.; This study is being ordered for There is a known tumor.; This study is being ordered as pre-operative evaluation.; "The There is not a known tumor.; This study is being ordered as pre-operative evaluation.; This study is being ordered because of a suspicious mass/ tumor.: "The patient has had This study is being ordered due to known or suspected infection.; "The ordering This study is being ordered due to organ enlargement.; There is ultrasound or plain film This study is being ordered for known tumor, cancer, mass, or rule-out metastasis

The patient is male; Infection or inflammatory disease best describes the reason for The patient is male; Other not listed best describes the reason for this procedure The patient is male; Pelvis fracture or injury best describes the reason for this procedure; This The patient is male; Prostate cancer best describes the reason for this procedure; This The patient is male; Prostate cancer best describes the reason for this procedure; This The patient is male; Prostate cancer best describes the reason for this procedure; This The patient is male; Prostate cancer best describes the reason for this procedure; This The patient is male; Prostate cancer best describes the reason for this procedure; This The patient is male; Prostate cancer best describes the reason for this procedure; This The patient is male; Prostate cancer best describes the reason for this procedure; This The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic disease best describes the The patient is male; Tumor, mass, neoplasm, or metastatic d
